

June 1, 2018

I had juggled the thought of purchasing storm shutters for quite some time, one reason being I was not knowledgeable of the process and cost. After deciding to move forward, the next step would be to choose a reputable company to perform the work.

After making a few phone calls and several estimates later, I decided to hire Majors Home Improvement and I could not have selected a better company! From the initial meeting with Chuck, the scheduling with Mike, to the installation with Bob and team, the overall experience was nothing short of exceptional.

I could not be any happier with this company, the product and the installation. You guys are top notch with me and I would gladly recommend you to everyone.

Sincerely,
Phyllis Burke
